

Golf Cart Battery Safety

When it comes to any battery, safety is always first. Look at the label below for common golf cart battery warning signs.

DANGER

Lead-Acid Battery

Contains: Lead, Sulfuric Acid (Electrolyte), Lead Compounds, Arsenic.

Harmful if swallowed, inhaled or in contact with skin.
 Acid causes severe skin burns and eye damage.
 May damage fertility or the unborn child if ingested or inhaled.
 May cause harm to breastfed children.
 May cause cancer if ingested or inhaled.
 Causes skin irritation, serious eye damage.
 Contact with internal components may cause irritation or severe burns.
 Causes damage to central nervous system, blood and kidneys through prolonged or repeated exposure if ingested or inhaled.
 Irritating to eyes, respiratory system and skin.
 May form explosive air/gas mixture during charging.
 Extremely flammable gas (hydrogen).
 Explosive, fire, blast or projection hazard.
 Obtain special instructions before use.
 Do not handle until all safety precautions have been read and understood.
 Wash thoroughly after handling.
 Do not eat, drink or smoke when using this product.
 Avoid contact during pregnancy/while nursing.
 Wear protective gloves/protective clothing, eye protection/face protection.
 Use only outdoors or in a well-ventilated area.
 Avoid contact with internal acid.
 Do not breathe dust/fume/gas/mist/vapors/spray.

Keep away from heat/sparks/open flames/hot surfaces. No smoking
IF SWALLOWED OR CONSUMED: Rinse mouth. Do NOT induce vomiting. Call a poison center/doctor if you feel unwell.
IF ON CLOTHING OR SKIN (or hair): Remove/take off immediately all contaminated clothing and wash it before reuse. Rinse skin with water/shower.
IF INHALED: Remove person to fresh air and keep comfortable for breathing. Immediately call a POISON CENTER or doctor/physician.
IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
 If exposed/concerned, or if you feel unwell, seek medical attention/advice.
 Store locked up, in a well-ventilated area, in accordance with local and national regulation.
 Keep out of reach of children.

Keep Vent Caps Tightly in Place

 **WARNING:** Battery posts, terminals and related accessories can expose you to chemicals including lead and lead compounds, which are known to the state of California to cause cancer and birth defects or other reproductive harm. Wash hands after handling. For more information go to www.P65Warnings.ca.gov.
WARNING: Risk of fire, explosion or burns. Do not disassemble or incinerate. Not recommended for inverted use. Follow product charging instructions.
High Voltage: Risk of shock. Do not touch uninsulated terminals or connectors.

Recharge monthly when not in use.

 BATTERY REQUIRES WATERING

Pb

BATTERY MUST BE RECYCLED

Battery Do's and Don'ts

- Wear proper eye, face and hand protection.
- No open flames or smoking around batteries
- Use insulated tools when making battery connections
- Electrolyte is a solution of acid and water, so avoid skin contact. If acid contacts skin or eyes, flush with water immediately for 15 minutes and contact a medical professional.
- Ensure connectors are torqued to the proper specifications.
 5/16" Studs or Bolts: 100-120 in. lbs. / 11.3-13.6 N-m
 3/8" Studs or Bolts: 120-180 in. lbs. (10-15 ft. pounds) / 13.6-20.3 N-m
- Do not lay anything on top of the batteries (wires, cables, tools, etc.)
- Always charge and handle batteries in a well-ventilated area
- Only add distilled or deionized water to your batteries and fill to the appropriate level.
- Never add pre-mixed acid to your batteries.
